

Roche Diagnostics Systems and Digital Solutions Portfolio

Research/Bioindustries

Research

LightCycler® 480 II system
High-performing and flexible qPCR platform with interchangeable 96- or 384-well format

LightCycler® 96 system
Fast and highly sensitive qPCR platform for qualitative and quantitative detection of nucleic acids and SNP analysis

MagNA Pure 24 system
Fully automated solution for nucleic acid extraction

MagNA Pure 96 system
High-throughput automated nucleic acid extraction

Research Tissue Diagnostics

DISCOVERY XT system

DISCOVERY ULTRA system

Bioprocess Control

Cedex® Bio HT Analyzer

Cedex® Bio Analyzer

Cedex® HiRes Analyzer

Pathology

Tissue Diagnostics

VENTANA HE 600 system
Automated slide stainer for H&E

BenchMark Special Stains system
Automated slide stainer for Special Stains

BenchMark GX system
Fully-automated IHC/ISH slide staining system

BenchMark ULTRA system
Fully-automated IHC/ISH slide staining system

VENTANA DP 200 slide scanner
Digital Pathology Scanner & Algorithms

Sequencing

AVENIO Millisect system
FPPE tissue dissection system

MagNA Pure 24 system
Fully automated solution for nucleic acid extraction

MagNA Pure 96 system
High-throughput automated nucleic acid extraction

Blood Bank

Molecular

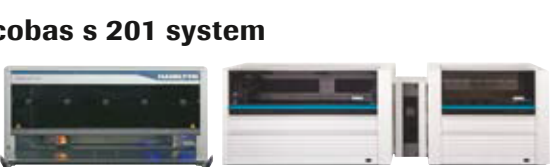

cobas® 8800 system

cobas® 6800 system

cobas s 201 system

Pooling solution with Hamilton STAR

Immunochemistry

cobas® 8000 modular analyzer series
cobas e 801 module

cobas® pro integrated solutions
cobas e 801 module

cobas® 4000 analyzer series
cobas e 411 analyzer

Pre- and post-analytics

cobas p 612 pre-analytical system

cobas p 512 pre-analytical system

cobas p 312 pre-analytical system

cobas p 501/p 701 post-analytical unit

cobas® connection modules (CCM)

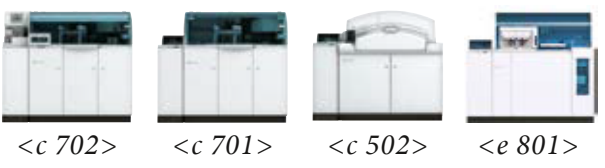

Central Laboratory

Serum Work Area (Clinical Chemistry and Immunochemistry)

cobas® 8000 modular analyzer series

> 240 configurations

cobas® pro integrated solutions

11* configurations

cobas® pure integrated solutions

3 configurations

cobas® 4000 analyzer series

3 configurations

COBAS INTEGRA® 400 plus analyzer

cobas c 513 analyzer
High volume HbA1c testing

cobas® mobile solution
Tablet solution to interact with SWA instruments

Coagulation

cobas t 711 coagulation analyzer

cobas t 511 coagulation analyzer

cobas t 411 coagulation analyzer

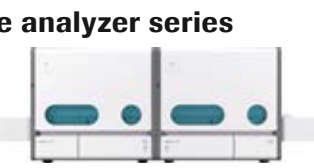

Multiplate® analyzer
Platelet function

Urinalysis

cobas® 6500 urine analyzer series

cobas u 411 urine analyzer

Molecular

cobas® 8800 system

cobas® 6800 system

cobas® 5800 system

cobas® 4800 system
Real-time PCR technology for amplification and detection

cobas z 480 analyzer

FLOW Solution
Complete workflow standardization and data automation for the LDT process

MagNA Pure 96 system
High-throughput automated nucleic acid extraction

MagNA Pure 24 system
Fully automated solution for nucleic acid extraction

Pre- and post-analytics

cobas® prime pre-analytical system
End to end laboratory process management solution, integrating full result management, while automating sample and data workflows.

cobas p 612 pre-analytical system

cobas p 512 pre-analytical system

cobas p 312 pre-analytical system

cobas p 480 instrument

cobas p 501/p 701 post-analytical unit

cobas® 8100 automated workflow series

cobas® connection modules (CCM)

Hospital Point of Care

Blood gas and electrolytes

cobas b 123 POC system

cobas b 221 system

9180 Electrolyte Analyzer

Glucose

Accu-Chek® Inform II system
Professional Blood Glucose Measurement

Cardiometabolics

cobas h 232 POC system
Cardiac Markers

Accutrend® Plus system
Lipids and Lactate

cobas b 101 POC system
HbA1C, CRP and Lipid Panel testing

Coagulation

CoaguChek® Pro II system
Professional Coagulation Monitor

Multiplate® analyzer
Platelet function

Urine

Urisys 1100® analyzer

Comburest® Urine Test Strips
Micral-Test®
Microalbumin Test Strips

Molecular

cobas® Liat® system

Infectious Diseases

SARS-Cov-2 Rapid Antibody test

Physician Office

Glucose

Accu-Chek® Guide

Accu-Chek® Instant

Cardiometabolics

cobas h 232 POC system
Cardiac Markers

Accutrend® Plus system
Lipids and Lactate

cobas b 101 POC system
HbA1C, CRP and Lipid Panel testing

Clinical chemistry

Reflotron® Plus system
Clinical Chemistry

cobas c 111 analyzer
Clinical Chemistry

Coagulation

CoaguChek® Pro II system
Professional Coagulation Monitor

Urine

Urisys 1100® analyzer

Comburest® Urine Test Strips
Micral-Test®
Microalbumin Test Strips

Molecular

cobas® Liat® system

Infectious Diseases

SARS-Cov-2 Rapid Antibody test

Patient Self Testing

Glucose

Accu-Chek® Guide

Accu-Chek® Instant

Accu-Chek® Active

Accu-Chek® Insight Insulin Pump

Metabolic

Accutrend® Plus system
Lipids and Lactate

Coagulation

CoaguChek® INRange system
Coagulation Monitor

CoaguChek® XS system
Coagulation Monitor

Urine

Comburest® Test HC
Urine Test Strips

Digital Solutions

VENTANA Vector
Education and collaboration software designed for digital slide sharing in academic settings.

IRIS Enterprise (IRISe)
Scalable cloud-based solution designed to aggregate digital pathology images and derived high-dimensional biomarker data.

NAVIFY Digital Pathology
Cloud-based research decision support solution with an automated image analysis algorithm.

Digital Solutions

VANTAGE workflow solution
Manages workflow steps in the pathology lab to ensure samples are handled correctly and efficiently.

VENTANA Connect middleware
Single point of data integration between customer LIS and all RTD platforms and systems.

uPath Enterprise (Digital Pathology)
Image Analysis (Digital Pathology)

Viewics LabOPS AP
Advanced data analytics service for anatomic pathology lab management.

CareGiver remote support
Enables continuous monitoring and remote service of RTD instruments.

NAVIFY Mutation Profiler

Digital Solutions

cobas® Synergy Solution
Complete workflow solution for blood screening NAT customers that perform pooling.

cobas® infinity laboratory solution
End to end laboratory process management solution, integrating full result management, while automating sample and data workflows.

Roche Inventory Solution
Tool designed to help laboratories simplify inventory management.

Roche Remote Caregiver
Product suite of insights based remote services.

Digital Solutions

cobas® infinity laboratory solution
Real-time monitoring dashboards within the lab to improve operational effectiveness.

Viewics LabOPS Core
Delivers actionable insights to empower informed decision making.

DiaLog
Customer facing portal providing information and online services.

Digital Solutions

cobas® infinity production monitoring
Real-time monitoring dashboards within the lab to improve operational effectiveness.

Viewics Dx Optimization
Identifies, reviews and tracks key trends and test ordering patterns to help improve patient outcomes.

Digital Solutions

cobas® infinity service intelligence platform
Proactive maintenance tool that keeps customer software solutions performing as expected and up-to-date.

Roche Inventory Solution
Tool designed to help laboratories simplify inventory management.

Digital Solutions

AmpliLink software
For central interface between LIS, cobas p 630 instrument and CAP/CTM system.

Roche Remote Caregiver
Product suite of insights based remote services.

Digital Solutions

cobas® infinity POC solution
Open, integrated data management system that helps manage point-of-care (POC) testing from a single location.

cobas® infinity edge
Secure, encrypted cloud based software that connects POC devices to Roche's data management system and EMR.

v-TAC
Arterial blood gas values from a venous blood sample

Digital Solutions

cobas® infinity edge
Secure, encrypted cloud based software that connects POC devices to Roche's data management system and EMR.

RocheDiabetes Care Platform (RDCP)
Clinical decision support platform

Digital Solutions

mySugr
Patient self-management app

SugarView
Metastress BGM app

RocheDiabetes Care Platform (RDCP)
Clinical decision support platform
